EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Phillip E. Walker on May 10, 2006.

The application has been amended as follows:

Claims 3,8, and 12 have been canceled in their entirety.

In Claim 1 line 12: The term "the upper portion." has been replaced with—

the upper portion wherein the floating rib creates a space between the floating rib and the upper portion. —

In Claim 6 line 7: The term "and second end." has been replaced with—

and second end and wherein the middle portion of the floating rib creates an open space between the floating rib and the lacrosse head. —

In Claim 10 line 11: The term "edges at the apex." has been replaced with—

edges at the apex wherein the middle portions of the floating ribs create an open space between the floating ribs and the lacrosse head. —

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings are in-formal which are permitted for examination but not for publication. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Reasons for Allowance

The prior art does not show or suggest a lacrosse stick head with floating ribs wherein said ribs wherein said rib is joined proximal to the throat and sidewall and has an open space between said rib and sidewall in addition to the other elements of the structure claimed.
